Yesha Niranjan

Senior Product / UX Designer · Enterprise SaaS & Complex Workflows

San Jose, CA · niranjan.yesha@gmail.com · yesha.online · linkedin.com/in/yesha-niranjan

PROFESSIONAL SUMMARY

Senior Product Designer with a Computer Science foundation and 7+ years of experience designing scalable enterprise SaaS, FinTech and EdTech ecosystems. Expert in 0-to-1 design system architecture, multi-tiered role-based permission systems, and translating ambiguous, data-heavy requirements into streamlined workflows. Proven track record of partnering with cross-functional engineering and product leaders to deliver measurable outcomes, including 30–35% task efficiency gains, 25% user activation increases and 70% support ticket reductions.

CORE COMPETENCIES & SKILLS

- **Product Design & UX Documentation:** Information Architecture, Enterprise SaaS Workflows, 0-to-1 Concept Development, Design Systems Architecture, Role-Based Access Control (RBAC) UX, Google Workspace (Docs, Slides), Notion
- **Research & Evaluation:** Usability Testing Protocols, User Interviews, Data Triangulation, WCAG Accessibility Compliance, Cross-Functional Design Reviews
- **Technical Fluency:** Frontend Code Triage, Design Tokens, Claude Code Prototyping, Command Line (Terminal), HTML/CSS/JS, Figma (Advanced Component Libraries)

PROFESSIONAL EXPERIENCE

Principal Product Designer · Mayd Sense Studios (Client Consulting Practice), Santa Clara, CA — Apr 2025 – Present

- Owned end-to-end UX/UI across enterprise B2B and financial platforms, scaling products from alpha to production across complex onboarding flows, analytics dashboards and transaction management surfaces.
- Drove design-to-development alignment on Figma component architecture, design tokens, interaction states and accessibility, guiding engineering so production stayed faithful to design intent.
- Served as de facto design lead and product strategy partner for high-growth clients (Next Health, Lucid Finance), running weekly design reviews with CTOs and engineering teams and reducing design-to-engineering handoff cycle time by ~40% within 8 weeks.
- Conducted rigorous usability evaluations and structured user research with U.S.-based enterprise clients (Mercor Intelligence), embedding robust fallback handling and WCAG accessibility standards.

UX Design Consultant · Benesse Corporation, Remote, USA — Oct 2023 – Apr 2025

- Engineered a flexible, multi-tiered role-based approval system and navigation structure supporting complex enterprise permissions across 4 user tiers and 3 time zones.
- Overhauled core enterprise navigation and educator tools, driving a 25% increase in user activation and significantly reducing support escalations within 90 days.
- Partnered with international stakeholders across Japan and India to bridge operational gaps between complex automated workflows and real-world enterprise needs, iterating on and course-correcting product strategy based on insights and feedback from cross-functional partners.

Product Designer · Kissht (Ring), Mumbai, India — Apr 2023 – Aug 2023

- Redesigned multi-step financial transaction flows and bank aggregator integrations for a high-scale fintech platform serving 2M+ active users.
- Ran systematic competitive benchmarking and usability reviews to restructure the core product backlog and optimize conversion funnels.

User Experience Designer · LEAD School, Bangalore, India — May 2021 – Apr 2023

- Led a comprehensive UX redesign and information architecture overhaul of a multi-role enterprise SaaS ERP platform, reducing average task completion time by 35%.
- Managed 40+ user interviews and 20+ usability testing sessions, codifying structured feedback loops that reduced design-related engineering queries by 50%.
- Streamlined core enterprise workflows to deliver a 22% improvement in user retention and a 70% reduction in customer support tickets, the highest recorded process efficiency gain at the organization.

User Experience Designer · Morph Digital Consultancy, Bangalore, India — May 2019 – Apr 2021

- Delivered 8 brand activation experiences across mobile, AR/VR and web for Google India and Amazon India, assessing technical feasibility for each.

UX Designer · Philips Innovation Campus – Healthcare, Bangalore, India — May 2018 – Dec 2018

- Pioneered an AR-assisted medical imaging and ultrasound workflow using Microsoft HoloLens and spatial tracking, reducing clinical procedure completion time by 35% and securing MVP funding.

EDUCATION

M.S. Digital Arts – UI/UX Specialization · International Technological University, Santa Clara, CA

Postgraduate Diploma in Design + Innovation · Indian School of Design & Innovation (Parsons Affiliated), Mumbai, India

B.Tech in Computer Science · Dharmsinh Desai University, Nadiad, India

Work authorization: OPT valid through Jan 2027 · Open to full-time hybrid, on-site or remote roles in the U.S.
